The Jamestown Tourist Company to Have a Fleet of Yachts for Exposition.

### STUDENTS ACT AS GUIDES

(Special to The Times-Dispatch.)

NORFOLK, Va., November 24.—Headed by Mr. Martin C. Ebel, of New York City, president of the Water Belt Line, the Jamestown Tourist Company has just been organized. The purpose of this company is to construct or charter a fleet of excursion yachts, on which small parties will be carried to the various points of interest in this section during the exposition.

Special day excursions to the various points of historic interest will be arranged, and in parties of from seventy-five to two hundred the visitors to the exposition will be able to see Jamestown Island, Yorktown, the Dismal Swamp, and the navy yard, under the most favorable conditions.

With college students, who are familiar with the history of all the places that will be visited, as guides for the parties, and who will lecture at each stop, these excursions will leave the various hotels in Norfolk, Portsmouth, Newport News and Old Point Comfort in the morning, and will return in the evening in time for dinner.

Luncheon will be served during the trips, and an orchestra will furnish the music. All of the yachts engaged for these excursions will be of high class, and will be under able management.

### Editor Arrested

W. O. Saunders, editor of the Muck Rake, a free lance publication of Norfolk, was arrested here early this afternoon by Detectives McBride and Connor, on a warrant sworn out by W. W. Dey, charging him with circulating hand bills calculated to make a breach of the peace.

The trouble arose over an article published in the December issue of the Muck Rake, as follows:

"There lives in Norfolk a practical politician by the name of W. W. Dey, who knows every vote in Cedarwood Cemetery. W. W. has warned me that he would do some awful things to me if I ever made him a subject for the Muck Rake. I told him, 'Never mind, Billy, I'm not troubling with the Dey and Out Club.'"

Dey met Saunders on the street, and told him that the next time he caught him in front of a prominent drug store that he was going to thrash him publicly.

This morning Saunders had the hand bills circulated on the streets of Norfolk.

### The Hand-Bill.

The affair has created somewhat of a stir in the city.

Following is a copy of the bill circulated:

### AN OPEN LETTER

Norfolk, Va., Nov. 24, 1906.  
To Captain W. W. Dey, Norfolk, Va.:  
My Dear Sir:—Following our conversation of yesterday afternoon, in which you notified me that you would publicly thrash me the first time you caught me in front of Burrow, Martin & Co.'s store or other very public place, I beg to notify you in turn—

"That I will be in front of Burrow, Martin & Co., 209 Main Street, at 4:30 o'clock this afternoon, when you may proceed to carry out your threat."

If you do not desist about it, I prefer having it all over with at once, rather than waiting indefinitely under the dread of an unexpected kick from behind.

Yours otherwise,  
W. O. SAUNDERS,  
Editor The Muck Rake.

### Governor of Delaware

Governor Lea, of Delaware, arrived in the city at 1:30 o'clock this afternoon and went at once to the home of Admiral P. F. Harrington. Governor Lea was accompanied by his wife, and they will be the guests of Admiral and Mrs. Harrington during their stay in the city.

In the afternoon Governor and Mrs. Lea were shown over the Exposition grounds. They had been spending the day or so at the Hotel Chamberlin, Old Point.

### Do You Expect

To Drive a Set of

### Brains

Hard

And NOT Feed Them?

That brings Nervous Prostration and its horrors.

But, BRAINS can work, and work hard, feel good and rested every morning, and grow stronger on the work

### If Fed Right

Grape-Nuts food contains delicate particles of Phosphate of Potash taken from the field grains (Nature's own laboratory). This element joins with albumen and water in the body, and thus makes the soft gray filling of the brain and nerve centres. Build in each day as much as the daily work takes away from Brain, and you are safe. That's the only safe way.

Grape-Nuts food is toothsome and delicious when served with rich cream.

"I have used your valuable medicine for many years, and can thankfully say that I believe it has not been for your medicine and the help of our Heavenly Father I would not now be alive. I can never praise it enough. It has benefited me so much. Many others here who have seen what it has done for me have used it with excellent results. It has never failed to cure in any case around here, and I would be proud if I could influence every sufferer from kidney disease to give it a trial. There has been such a commotion of kidney troubles in my case that the physicians wonder how I keep up. I could write a volume on what it has done for me and for others to whom I have recommended it, both old and young."—MRS. T. T. CARTOR, Campbellsville, Tenn., April 24, 1906.

### People Seen in Public Places

"You cannot say anything that will be too good for the great show we are going to have next year," declared Mr. Gwyn T. Shepard, secretary of the Jamestown Exposition Company, when seen at the Richmond last night.

"There never was any doubt of the success of the undertaking," continued Mr. Shepard, "but recently the progress we have made, and the liberal patronage of distant cities and States, have gone far beyond our most sanguine expectations."

"The scenes about the grounds, where the sound of the saw and the hammer are constantly heard, are at once lifelike and progressive, and it all means that we will be ready to open on time, that the show will be the greatest ever witnessed in this country."

Mr. Shepard will leave for Washington to-day, where he will look after some business connected with the exposition. He is enthusiastic over the outlook, and is greatly in love with his work.

Mr. Shepard was a personal friend of the late General Pittsburg Lee, and was made secretary of the company when General Lee was president.

He is a son of the late Hamilton Shepard, long the faithful secretary of the State Democratic Committee.

MR. DON C. CAMERON.

Don C. Cameron, Healdsburg, Cal., Treas. Civil Service Reform Club, writes:

"I am glad to speak a word for Peru-na to all those who are afflicted with catarrh of the lungs as I was for years and for which I could find no relief until I tried your valuable remedy."

"I had no appetite and had lost much in weight and could not sleep at night. The slightest exertion tired me and I had given up in despair. I always had a little hacking cough, my lungs felt sore, and my back ached."

"After taking two bottles of Peru-na I felt so much better and looked so much better that my friends were both pleased and astonished. I continued taking the medicine until now I am perfectly well."

All organs of the body are lined with mucous membranes. Any of these organs are, therefore, liable to catarrh. Catarrh is a congestion of the mucous membrane, which precedes true inflammation.

Many cases of inflammation of the mucous membrane never go farther than the catarrhal stage. Therefore, the catarrhal stage is liable to become a chronic one.

Preceding Bright's disease of the kidneys, there is a catarrhal condition of the lining membranes of the kidneys. Preceding true gastritis, there is a catarrhal condition of the mucous membrane lining the stomach.

Preceding inflammation of the bowels, there is a catarrhal condition of the mucous membrane lining the bowels. The same is true of the lungs. Preceding true inflammation of the lungs, or consumption, there is a catarrhal condition of the mucous membrane lining the lungs. Sometimes this catarrhal condition will remain for years without further development.

The victim of catarrh of the lungs is liable at any moment to develop consumption, as the catarrhal condition of the lungs renders them peculiarly susceptible to consumption. If the catarrhal condition could be entirely removed by some form of treatment, the liability to contract consumption would be also removed.

It is claimed for Peru-na that when faithfully used, according to directions, it will relieve the catarrhal condition arising in any organ of the body. Perhaps the most frequent illustration of the fact that Peru-na will relieve cases of internal catarrh are the numerous cases of catarrh of the lungs that have reported entire relief from the use of Peru-na. The above case of Mr. Cameron is only one of the many which we have on file.

An annoying and persistent cough; a loss of flesh; a shortness of breath; weakness of the whole system; this hangs on in spite of all remedies. At last Peru-na is resorted to, and a prompt relief obtained. This has been repeated many times, as hundreds of letters in our files give testimony of.
